1、包装盒(天地盒)/每套1件/ 250G K=K YM060000494																																																																																																																																															
A												A																																																																																																																																			
B	 纸盒面盖											B																																																																																																																																			
C	 纸盒底盖											C																																																																																																																																			
D	2、缓冲件/每套1件/ K3K YM060000474 缓冲纸皮展开尺寸: L×W×H=1300×301×3mm											D																																																																																																																																			
装配后外尺寸: L×W×H=2025×165×122mm																																																																																																																																															
要求: 1、请注意瓦楞方向; 2、允许公差范围±3mm; 3、订钉须牢固; 4、材料及加工过程须符合环保要求.																																																																																																																																															
注: 每套含面底盒各一件 (另每套各配有三种环保珍珠绵及一个缓冲纸皮)
